igniteCRM is a web-based Church Relationship Management software that is an accelerator for church growth. With personal dashboards for staff, leadership and members, IgniteCRM goes above and beyond the top-of-the-line CRM and actually connects visitors and members to leaders, plus facilitates relationship between members, fostering community and church growth. One of the top reasons people leave a church is because they don't feel a connection to the people. Converting visitors to members, and keeping those members engaged, requires in-depth knowledge of member activity, combined with intentionality by the staff.

With IgniteCRM, you will:

ACCELERATE CHURCH GROWTH – Empowering staff and leadership with vital ministry statistics allows your team to monitor church health quickly and easily.

CREATE CONNECTIONS – Manage small groups through successful group member placement, group email functionality and event tasking capabilities.

CLOSE THE BACK DOOR – Tracking attendance, contributions and activity will equip your staff with vital information to engage members and get them plugged in.

igniteCRM allows you to grow your ministry one person at a time. Empower your leadership to maintain the quality relationships necessary for a healthy church.

With social networking, integrated sorted email lists, unlimited file storage, multiple organization management, and contribution tracking and reporting, IgniteCRM takes Church Relationship Management to the next level through these innovative web-based modules. Implementing IgniteCRM will be not only cost-effective, but extremely easy.

From the very beginning of the process, you will receive personal attention by a team of experts. Every IgniteCRM client receives professional consultation, initial setup and training, PLUS unlimited support.

“ I loved the forward thinking features. ”

— Steve Hewitt, Editor of Christian Computing Magazine
